WHY are we doing this?

Have you been to our fine arts performance? Did you get chance to visit our computer lab in the library? Has your child told you about their class field trips and our all school field trip? Those are all positive things the PTO does with the money you help raise. The PTO also purchases books, recess equipment, gym balls, a school laminator, funds reading week and ITBS week, and purchase Infocus machines and Elmo projectors for classrooms.. We still need more computers to complete our lab and many other items and improvements are needed at our school!
